

EXECUTIVE FORUM '18

DEBATE. INCUBATE. ACCELERATE.

**Megan Kelley**  
Fidelity Investments  
*VP, Research Fidelity Center  
for Applied Technology*

Megan Kelley leads emerging fintech research within Fidelity's Center for Applied Technology. The research team looks three to five years out for technologies and changes that may impact Fidelity's customers. They help the firm understand the potential of emerging technology, explore innovation globally, and identify projects worth pursuing. She is actively engaged in Fintech Sandbox and MassChallenge.

Previously, Megan led social media research in FidelityLabs, driving experimentation with emerging platforms and data. Prior to joining Fidelity, Megan worked in editorial and natural language analytics for startups and publishing companies as well as information services at Mercer. She holds a BA in English from Williams College and an MLS in Library and Information Science from Simmons College.
